NATURAL STONE CARE GUIDE

GENERAL EVERYDAY CLEANING:

- USE A MILD NON-ACIDIC SOAP WITH WATER AND DRY THE SURFACE IMMEDIATELY AFTER CLEANING.
- USE A WHITE OR NON-DYED CLOTH TO PREVENT DYES LEACHING INTO YOUR STONE.
- AS NATURAL STONE IS POROUS ALL SPILLS SHOULD BE CLEANED UP IMMEDIATELY. FOR SPILLS SUCH AS RED WINE, BLOT THE SURFACE WITH A CLEAN, DRY CLOTH (WIPING WILL ONLY SPREAD THE SPILL OVER A LARGER AREA)

MAINTENANCE:

- USE CUTTING BOARDS, COASTERS, AND TRIVETS TO PROTECT YOUR COUNTERTOPS FROM SCRATCHES, STAINS AND BURNS.
- TO AVOID RESIDUE BUILD-UP, WE RECOMMEND USING A STONE CLEANER A FEW TIMES A WEEK. USE A PROPERLY FORMULATED CLEANING SOLUTION FOR OPTIMUM MAINTENANCE.
- ONCE A YEAR, CLEAN AND DRY YOUR STONE. THEN APPLY A NEW COAT OF SEALER.

NEVER USE:

- WINDOW CLEANER, ALCOHOL, AMMONIA, VINEGAR, ACID BASED OR ALKALINE CLEANERS
- ABRASIVE MATERIALS OR ANY OTHER ABRASIVE CLEANING POWDERS, GELS OR PADS

RECOMMENDED SEALERS & CLEANERS:

- TRINOVA® GRANITE SEALER & PROTECTOR
- GRANITE GOLD® SEALER SPRAY
- BLACK DIAMOND® GRANITE SEALER
- METHOD® ALL-PURPOSE NATURALLY DERIVED SURFACE CLEANER
- GREEN WORKS™ NATURAL ALL-PURPOSE SPRAY CLEANER
- LYSOL® PROFESSIONAL DISINFECTANT SPRAY
